

Become a Sponsor for a Child at Father's House in Kiev, Ukraine

Shelters and orphanages in Ukraine are full of children like these beautiful girls (pictured right). Without intervention their lives have virtually no hope.

Father's House is home to around 74 children who have all come to live there as a result of being abandoned, orphaned, abused, parents in prison or drug/alcohol addicted – each child comes with a “story”. Father's House is a beautiful, privately run Christian home and the children are very lovingly cared for. Seeing the transformations in the children is amazing.

Each summer, Father's House has a camp for 3 months for children who have nowhere to live and at the end of the summer a number of them come to live at Father's House. In August this year another 11 children were added and needing sponsors, as well as some children already living there.

A sponsorship is \$30 per month and given through Ezra International in Florida, a registered charity – you will get a tax receipt. No money is taken for overheads. You will receive a photo and short bio on a child and whenever we go we take letters to the children from sponsors and do our utmost to bring a letter and photo back. You will also receive an update on your child from time to time.
